## HOSTED PBX

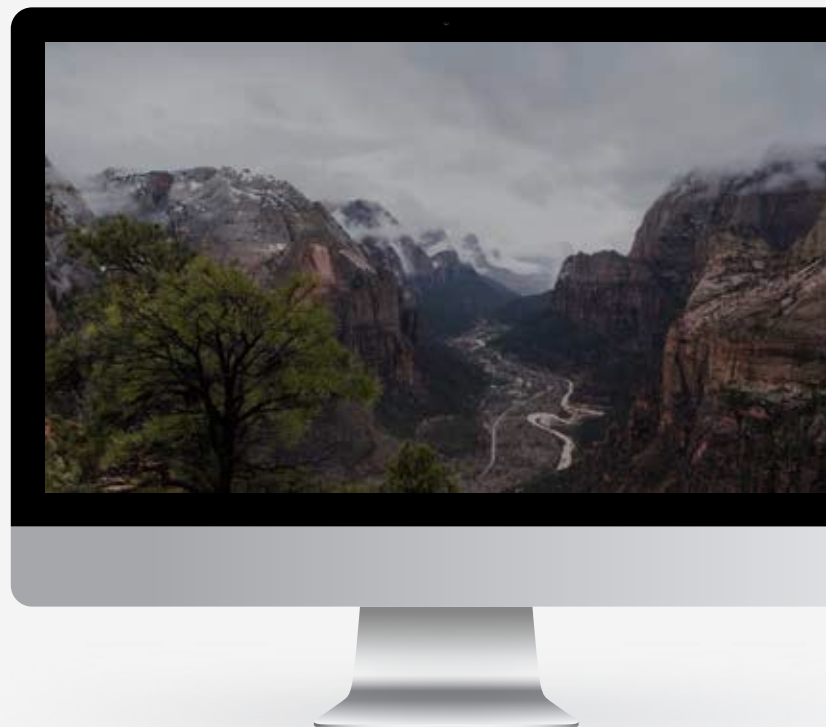

### Great Features and **Rock Solid Stability**

#### **COMPLETE DESKTOP PHONE SOLUTIONS**

For business customers, managing communications and increasing productivity in today's dynamic, distributed, mobile economy is extremely challenging. With Metaswitch hosted PBX, network operators can support customers of any size to meet these challenges by quickly and reliably delivering feature-rich, high-quality, and secure business communications solutions.

#### **COMMPORTAL FOR METASWITCH**

- View missed calls
- Listen to voicemail messages
- Manage your contacts
- Set up rules to route your calls
- Configure Voicemail to Email and Voicemail notification
- Perform many other functions

## ACCESSION COMMUNICATOR

Accession Communicator is a powerful UC application that enables carriers to extend their business telephony services directly to an end user's laptop, desktop or portable device or handset. These endpoints present the actual calling features, dial plans and outgoing caller ID of the twinned office phone. Accession is ideal for remote workers and mobile workers who are increasingly bringing their own devices (BYOD).

## THE BENEFITS

Extend and enhance business telephony from the desktop to rich mobile communications with Metaswitch Hosted PBX solutions!

HD Voice and Video Calling

SMS texting with file sharing and presence

Powerful pre-call and in-call control features

Identical calling features and caller ID on all devices

Applications for Windows, MacOS, iOS and Android

Unique network management tools and analytics

## ABOUT CALLTOWER

CallTower exists to enable people to easily connect to transact business communications. Since its inception in 2002, CallTower has become a leading provider of cloud-based, enterprise-class Unified Communications solutions for growing organizations worldwide. CallTower provides, integrates and supports industry-leading, cloud-based, Unified Communications and Collaboration solutions, including Cisco® Unified Communications Manager, Microsoft® Skype for Business, Office 365 and Adobe Connect services for business customers.

CallTower enhances customers' strategic and operational capabilities by integrating VoIP service, mobile applications, email hosting, unified messaging, instant messaging, audio, web and video conferencing, collaboration tools, contact center, cloud services and global networks solutions into one reliable platform.
